TURK LOSSES IN DARDANELLES

Rome, Sept. 8.—The Currier d'Italia has received a letter from Athens in which it is stated that the total losses of the Turks in the Dardanelles are estimated at 250,000 men. Armenian refugees relate that 70,000 Armenians have been massacred, including several deputies of the Turkish parliament. Everyone in Constantinople knows that bankruptcy of Turkey is imminent. Agents and functionaries of the police and devoting themselves entirely to plundering. German officers are becoming alarmed and discouraged and are demanding that they be sent back to Germany to fight for their native land.

CULMERS COMPANY COMPLAINS OF ROADS

Washington, Sept. 8.—The Culmers company, Salt Lake City, today filed with the interstate commerce commission complaints against the Union Pacific, Denver & Rio Grande, Oregon Short Line and Santa Fe railroads, alleging that the freight rates of from 90 cents to \$1.09 per 100 pounds on shipments of oil from Oklahoma and Missouri points to Salt Lake City are excessive and discriminatory.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

To Renovate Your Discarded Underwear—Restoring Pink Color—Unique Decoration for Luncheon Party—Economies for the Housewife.

WHEN PINK TURNS GRAY.

Have you a little pile of discarded underwear and blouses in one end of a bureau drawer—clothes discarded because they have lost their once-pink complexion and are now a disconsolate grayish-yellow heap? If you have such things take heart. The blouse that through careless washing of sun or perspiration has turned yellow can be made pink again. The nightgown or petticoat, camisole or other piece of underlinen, can be restored to its original pinkness.

More than that, a white garment that has grown yellow, because of the water, perhaps, with which it is necessarily washed, has a surprisingly large amount of water has a yellow tinge—can be dipped and made pink to cover the yellowness.

Now there are several ways of coloring white things pink.

One way is to buy a package of red dye, and use a very little of it, well diluted with water. Dip the thing to be pinked into this, and if it is not dark enough add more dye. Let it dry and iron it and it will be ready to wear. Of course this color, easily applied, easily comes out, so after a few washings the dipping must be repeated—perhaps the very next washing will take it all out. But it is no more trouble to use than bluing water.

Then there are special colored powders for the purpose that are dissolved in water to be used like bluing. These powders come in most of the popular light shades—tan and lavender, blue and pink.

Lacking either of these coloring devices, however, you can still make your once-pink clothes pink again. Dip a piece of red crepe paper in a basin of water—and the resulting red water will serve admirably as dye to color the faded article.

LUNCHEON FOR A BRIDE-ELECT.

A girl who will be an early fall bride was the guest of honor at a luncheon at which this unique centerpiece was used and greatly admired. Over the table suspended by streamers of pink tulle there was a good-sized wedding bell of white and green flowers. Pink tulle wound with feathery apparatus went to the four corners of the table, and from these graceful white hearts fluttered. The place cards were cut in shape of slippers and the bride-elect's chair was ornamented by a huge bow of pink tulle. Pink satin bags clasped by a gilt china wedding ring were filled with puffed rice, and were the souvenirs at each place.

HOUSEHOLD ECONOMIES.

Stone jars with tight-fitting covers make excellent bread boxes.

Articles should touch each other as little as possible while frying.

Baked beans will be better if they are parboiled before they are put into the pot for baking.

When frying be sure that the fat is not enough to answer the test before the article is put in.

Don't throw the feet of chicken away, but clean and skin them carefully and put them in the stock pot.

Keep the dishes containing food closely covered and the refrigerator will be kept free from odors.

If you are using tinned food of any kind empty it into china or glassware at once when it is opened.

The water in which fresh tongue, mutton or chicken has been boiled may be used for soup or added to the stock pot.

When frying doughnut mixtures, use accurate recipes. If too much baking powder is added the article will soak fat.

Thin People Can Increase Weight

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and many thin men and women believe can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food, it aims to turn the fats, sugars and starches of what you have eaten, into rich, ripe fat producing nourishment for the tissues and blood—prepare it in an easily assimilated form which the blood can readily accept. Much of this nourishment now passes from your body as waste. But Sargol works to stop the waste and do it quickly and to make the fat producing contents of the very same meals you are eating now develop into pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. A. R. McIntyre Drug Co. and other leading druggists in this vicinity sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back as found in each large box.—Advertisement.

OLD-LINE LEADERS ARE TO CONTROL

Wm. H. Taft Welcomes Progressives Back to Party With Qualifications.

Seattle, Wash., Sept. 8.—William H. Taft in a speech here tonight that he characterized as the first political talk he had made on his recent tour, defined what the "reform must mean" of dissident Republicans to their party.

"They cannot involve the old party," he said, "in promotion of those planks of the so-called Progressive party, adopted in 1912, which never were and never will be supported by the national Republican party."

The former president's speech was made in the lobby of a hotel shortly after his arrival here from San Francisco, in response to an address of welcome by the president of the Young Men's Republican club of this city. He read from a manuscript which he had penciled on the train.

"The placing of the Democratic party in power," he said, "and the adoption of policies to which the majority of voters are opposed, has, I think, startled many of the dissident Republicans into the conviction that whatever the merits of the Republican fight of 1912, it is time for them to resume their places in the Republican army, and we will all rejoice to welcome them back.

Cannot Control. "But in the warmth of our welcome we should not lose sight of what their return must mean. It means that they become Republicans again and that they cannot expect to support under the Republican party banner any but Republican party principles; that they cannot involve the old party in promotion of those planks of the so-called Progressive party adopted in 1912, which never were and never will be supported by the national Republican party.

"The truth is the highest ambition of the modern Progressive statesmen, temporarily in control of a state legislature, is by huggermugger of primary laws and with loud cries over the virtue and beauty of non-partisanship to formulate the qualifications in a party; so that a compact minority created by a political machine of state patronage may control the selection of all candidates for all parties. The question of subjecting themselves to the domination of such a personal non-partisan machine is now an issue before the voters of California.

Ruse to Confuse Issues. "If not now, then after further experience the people of states where such a plan is successful, will realize that though proclaimed as a means of blessed non-partisanship, it is only a

ruse to confuse the real issues, to destroy the responsibility of elected officials and to defeat the considered judgment of a majority of the people in such issue.

"The Republicans who are sincere Republicans should make every effort to secure the election of candidates to congress, the senate and the presidency on the Republican ticket who feel themselves pledged to support, in our national councils, Republican principles. It is a perversion of popular government and a sad farce when one who is elected on a Republican ticket herds with Democrats or Progressives in the senate or house of representatives.

Lays Down Rule.

"If he is a Democrat let him seek Democratic support, and we'll respect him, but vote against him. If he is a Progressive, let him seek Progressive support. We may wonder at the variety and inconsistency of his many principles and vote against him and them, but we will respect him for playing the game fairly and dealing squarely with those whom he seeks to make his constituents.

"But when he proposes to be a Republican, and by the same arts as those of a thimble-rigger, and by the votes of Democrats and Progressives cast in Republican primaries he attempts to masquerade as a Republican on a Republican official ticket, he should be taught a lesson in political morality he will not soon forget."

The evils of speculation clearly depicted in "The Climbers" last time tonight at the Ogden Theater.

BERLIN REVIEWS CZAR'S ACTION

Grand Duke Nicholas Remained Because Russian Catastrophes Had Shattered Influence.

Berlin, Sept. 9, via London, 12:33 p. m.—The removal of Grand Duke Nicholas from the position of commander in chief of the Russian armies is the text of long articles in Berlin newspapers this morning. The Tageblatt says the grand duke was removed because, notwithstanding his undeniable gifts in the strategy of retreating, he bears the responsibility for the Russian catastrophes in Poland and Galicia, his influence being shattered in consequence.

A view more frequently expressed is that the retirement of the grand duke was dictated by political reasons and aimed particularly at the party represented by the present Russian government, which had grown strong. The Lokal Anzeiger says the displacement of the grand duke removes the government party's strongest supporter and means a loss to the army, which saw in him the appointed leader.

Tribute to Grand Duke. This newspaper pays a frank and generous tribute to the former commander in chief as a brave and honorable enemy and an able leader.

The Morgenpost, on the other hand, terms Grand Duke Nicholas "a brutal and bloody man without leadership talent," and the "destroyer of his army, his land and his people." It adds that the moment demands a leader of titanic strength and asserts that "this complete cipher as a leader of Russian armies" has been discredited by his defeats.

Breaking Down of Army.

The Vossische Zeitung finds in Emperor Nicholas' move "final proof of the approaching breakdown of the army and state." It asserts that the government in view of repeated defeats, saw itself compelled to summon new leaders for the army, and the political position of the Grand Duke made the decision of the emperor easy.

The Boersen Zeitung views the charges as having been directed against certain coteries in the inner political life of Russia, and believes it may be calculated also to impress the other members of the quadruple entente with the feeling that Russia is doing everything to ward off impending events.

The Tages Zeitung says: "One hardly errs in ascribing, along with the military significance, just as important political significance to the change. The grand duke party, whose head was the former commander in chief, has suffered a very real defeat."

London Press Comment.

London, Sept. 9, 3:40 a. m.—Commenting upon the changes in the Russian high commands, the military expert of the Times says that short of some serious mistakes, which the grand duke has hitherto shown no sign of making, the Russians can now carry on an orderly and quiet retreat, fighting where they please and for as long as it pleases them, until the wet season imposes a halt on their enemy.

fails to understand why a mass of Austrian troops was kept quiescent in Galicia during two critical months instead of being transferred to the Vlna front for the profit of the decisive operation there. He considers that in this the Germans showed poor strategy and threw away an opportunity which may never recur.

The Petrograd correspondent of the Times thinks the appointment of General Polivanoff, minister of war, as premier, will be announced soon, and points out that the imperial order coincides with the beginning of a solemn fast ordained by the Holy Synod which adds solemnity to an historical event.

Vigorous Campaign in Turkey. Other papers suggest that the appointment of the grand duke as commander-in-chief in the Caucasus implies a new vigorous offensive against Turkey.

The Post Petrograd correspondent declares it is not secret that many attempts have been made through Teutonic instigation to remove the Grand Duke from his command by violence and explains that, masterly as the Russian retirement has been, a retreat does not appeal to the public mind. Hence, he says, it may be supposed that the emperor's action was to unite the entire nation in carrying on the war.

Moreover, he declares, Russia has exceedingly important interests on her Asiatic front which, in the all-absorbing menace from the west, slipped rather in the background and the grand duke is going to the Caucasus at the moment when it is felt a great crisis is approaching there.

London, Sept. 9, 6:17 a. m.—A Reuter dispatch from Petrograd says that Grand Duke Nicholas and his headquarters staff started for the Caucasus last evening. Emperor Nicholas went to the railroad station to say farewell to the new viceroy.

AUSTRIANS ARE DRIVEN BACK BY ITALIANS

The Italians have also advanced in the Val Sugana, taking 200 prisoners, including a colonel.

Airmen Kill Soldiers.

London, Sept. 8.—An Exchange Telegram dispatch from Amsterdam says that in the air raid on Saarbruck the military railway was blown up and seventy-five persons, mostly soldiers, were killed. The military authorities have enjoined secrecy.

Allies Make Gains.

London, Sept. 8.—A Telegraph dispatch from Mitylene says reports received there are to the effect that the allies have gained success on the Suvla front at the Dardanelles.

BACKACHE KILLS!

Don't make the fatal mistake of neglecting what may seem to be a "simple little backache." There isn't any such thing. AUTO PLANT ADOPTS EIGHT-HOUR SYSTEM

Toledo, O., Sept. 9.—The Warner Manufacturing company, extensive manufacturer of automobile parts, announced today that the company would reduce the working hours at its plant to 48 hours per week during October with no change in the scale of wages.

The reduction is voluntary and is being made as an experiment. Owing to strong competition, it is said, the men must produce the same results in 48 hours as employees at other plants do in 60.

LUTHERANS HOLDING GENERAL COUNCIL

Moline, Ill., Sept. 9.—Four hundred delegates were in attendance today at the opening here of the biennial meeting of the General Council of the Lutheran Church of North America. The sessions will be held alternately in Moline and Rock Island.

Dr. T. E. Schmauk, president of the council, in his opening sermon today, condemned the departure from Christian teachings that has made the present war in Europe possible. Even America, he said, has abandoned the altruistic for the material.

RAILWAY CLERKS FAVOR RECRUITING

Bristol, England, Sept. 9, 12:44 p. m.—The Trades Union Congress adopted virtually without opposition at today's session a resolution presented by the Railway Clerks' union, on the subject of recruiting. The congress resolved:

"That this congress, being convinced that the issues involved in the present European war are of transcendent importance to the democracies of this and other countries, hereby records its entire approval of the action of the parliamentary labor party in co-operating with the other political parties in the national recruiting campaign."

The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.
